

A DAY IN DAYLIGHT:

3rd November 2025

DLA
DAYLIGHT
ACADEMY

LIGHT EXPOSURE AROUND THE WORLD

10 Time zones

15 Countries

1763 activity logs

+14h] deviation
-12h

47 Participants

1st DATASET of this type

22 SEPT AUTUMNAL EQUINOX

STUDY CONCLUSIONS:

Light exposure is NOT VERY WELL UNDERSTOOD around the globe

People spend approx 10% time outdoors

Is very contextual the amount of light
↑ OUTDOORS
↓ MIXED
↓ INDOORS

mel EDI (1x)

☀ - During day is very busy

🌙 Less activity

RUN for the SUN
"winner" 2025
SPAIN

IMPORTANCE ACROSS DISCIPLINES

VISUAL NEUROSCIENCE

LIGHT IS A LIFE REGULATOR

Sneezing in response of daylight exposure

Personal light exposure measurement VALUABLE INSIGHTS

OPTOMETRY

ACTLumus Wearable light loggers

MIOPIC EYE Vision Environmental Evaluation tool

CHILDREN light exposure as prevention

AGEING

Rapid AGEING
SINGAPORE - POPULATION
124 Daylight Year/Room
Less light input
pupil shrink yellow

MORE LIGHT EXPOSURE
CULTURE BEHAVIOUR NEW HABITS
BEHAVIOUR CHANGE

OCCUPATIONAL HEALTH

888 Participants workplace
80-90% EU employers indoors
Mobile work good light exposure

MORNING EVENING EXPOSURE NOT IDEAL

TYPE OF JOB DETERMINES LIGHT EXPOSURE

NEUROLOGY

Light exposure circadian rhythms

DAYLIGHT IN DAY

Awareness on our own habits

sleep Sensitivity Migraine
Vitamin D Mental Health

CIRCADIAN & SLEEP SCIENCE

Light exposure at
RIGHT TIMING
WRONG TIMING
Benefits sleep & health

GUIDED BEHAVIOUR AWARENES
OFFICE
Morning exposure vs. evening exposure

THE IMPORTANCE OF SMALL DECISIONS SOME UNDER OUR CONTROL SOME NO CONTROL

PERFORMANCE PHYSIOLOGY

NASA PILOTS
LIGHT FOR BEST PERFORMANCE UNDER UNUSUAL SITUATIONS

UNUSUAL CIRCUMSTANCES
NOT ENOUGH LIGHT OR TOO MUCH EXPOSURE
TIMEZONE ADAPTIONS

THE STUDY
• UNDERSTAND what pilot experience
• "wrong" light exposure patterns
• Mature measure devices

ARCHITECTURE

COSTA RICA
CULTURE BEHAVIOUR ARCHITECTURE

Tropical weather
IS NOT ABOUT LIGHT BUT HOW WE EXPERIENCE LIGHT

Heat
INDOORS
HOW TO DESIGN WITH ALL THIS FACTORS IN MIND?
